

Plan Renove

Are any of your electrical appliances in need of replacing? If so, I might have some good news for you!

We recently needed to buy a new washing machine, and on one of our recent visits to Granada, went to the usual superstores to look at prices and what was on offer.

We saw quite a few offers on washing machines, driers, freezers and televisions. Many had a price but underneath it gave approximately 85 euros off for PLAN RENOVE. I thought I understood what it meant so asked the shop assistant and sure enough, we were told that if you have a product to trade in, in exchange for a new product you get the cheaper price.

We decided to wait and look locally around Baza and ended up at They had a reasonable choice of products and also offered the Plan Renove (although here there were no TVs on offer). We have been to some other electrical shops and this offer is not apparent, so it is good to shop around.

So if you are thinking about buying a new product in the near future, here is what you need to take with you:

Residencia or NIE and your passport

Empadronimiento

Your most recent electric bill

Your most recent water bill (although we weren't told we needed this in one shop - but best to take in case)

We found the prices and offers to be really competitive and there are some great savings to be made if you shop around!

Your product will then be delivered direct to your door (usually free of charge) within 7-10 days.

You can pay in store or upon arrival!
